

I have two parents who love me.

I have just one semester left of college.

I have a serious addiction to alcohol and pot.

But most of all... I have hope.

Before I was in my teens, I learned how to get high from inhalants. Then I began using alcohol and marijuana. Eventually I couldn't leave the house if I wasn't high. I drank myself to sleep every night. That's when my brother encouraged me to seek treatment.

I got the help I needed. And today, I'm Back on Track.
